

This is in regards to K-Love and LPFM. I am concerned that if LPFM replaces FM stations that K-Love will no longer exist. Today's America cannot afford to lose a station that promotes moral values and that offers music and DJ's that can inspire a person with hope!

If K-Love was taken off the air my choice would be to shut off the radio because unfortunately my America the country that I dearly love is being replaced by stations that promote the latest fad of indecency. It shames me to think a child cannot be left alone with a radio on for the fear they may be influenced by music or DJ that can steal the innocence from their heart. I thank you for taking the time to read my note and I am hopeful you too believe that America is a nation where children can grow up in the beauty of innocence. For one day these children will grow up and look back to see what legacy we who could impact change today left for their tomorrow. Have a good day~
